

ARTEBENE

PACKAGING STATIONERY PRESENTS

Spring 2018

DEAR CUSTOMER,

2017 has been an eventful year in the trade – also for **ARTEBENE**. In an age of increasing digitalisation, changing trade structures and consumer behaviour it requires a high level of creativity and entrepreneurial spirit – from the creative product development to the emotional presentation in your store.

Also in the future, we would like to be a reliable partner, and we see our **ARTEBENE** brand as a promise to you. A promise that offers the highest degree of new products within the industry, an excellent customer support and a dependable delivery service. You should be able to trust that our products are safe and meet all legal requirements. Sustainability as well as clear social standards have to be considered with the manufacturing process and supply chain.

For our brand management, we have been honoured with the German Gold Brand Award in June 2017. A prize from the German Design Council with which the holistic brand management that goes far beyond the design of each single product has been honoured. We are happy about this award because a good brand is keeping the promises made.

Now, you can look forward to our new products of the Spring Collection 2018. A collection which is in touch with the latest trends, based on our own trend scouting and has been developed with a lot of joy within our own design studio.

We wish you a lot of joy with the products of **ARTEBENE** – and of course a lot of success!

Yours,
Beate and Dr. Rüdiger Kress
